

Pre-Application Webinar Tobacco Centers of Regulatory Science for Research Relevant to the Family Smoking Prevention and Tobacco Control Act

March 27, 2017

RFA-OD-17-006 (U54)

Helen I. Meissner, Ph.D.

Director, Tobacco Regulatory Science Program

Office of Disease Prevention

National Institutes of Health
Office of Disease Prevention

Tobacco Regulatory Science Program (TRSP) Background

- Emerged as a result of a partnership between FDA's Center for Tobacco Products (CTP) and NIH
- Office of Disease Prevention has NIH oversight responsibility
- Coordinates trans-NIH extramural and intramural collaborative activities with CTP (FOAs, grantee mtgs., etc.)
- TRSP represents an addition to the NIH tobacco research program and does not replace or diminish any existing tobacco research activities at any of the Institutes or Centers.

[About Us](#)

Located in the NIH Office of Disease Prevention (ODP), the Tobacco Regulatory Science Program (TRSP) coordinates the trans-NIH collaborative effort with the Food and Drug Administration's (FDA) [Center for Tobacco Products \(CTP\)](#) to conduct research to support its regulatory activities over tobacco products. Established in 2013 through an interagency partnership with the FDA's Center for Tobacco Products in 2012, TRSP coordinates the collaborative research effort across the NIH with the FDA CTP.

With the passage of the [2009 Family Smoking Prevention and Tobacco Control Act \(Tobacco Control Act\)](#), the FDA acquired the authority to regulate the manufacture, marketing, and distribution of tobacco products in order to protect public health. Within the framework of the Tobacco Control Act, the NIH and FDA formed this partnership to foster tobacco regulatory research. The NIH has the infrastructure for the solicitation, review, and management of scientific research, and several NIH Institutes and Centers have long supported tobacco-related research as part of their missions. The FDA has expertise in tobacco regulatory science and the authority and resources to support research responsive to FDA's regulatory authority. [NIH biomedical, behavioral, and social sciences](#)

What's New

- [Tobacco Regulatory Research Measures Available in the PhenX Toolkit](#)

FOAs and Webinars

- [New! Center for Coordination of Analytics, Science, Enhancement, and Logistics \(CASEL\) in Tobacco Regulatory Science \(U54\)](#)
Application Due Date: July 19, 2017
- [Frequently Asked Questions \(PDF - 44 KB, updated March 2, 2017\)](#)
- [Pre-application webinar to be held March 27, 2017, 11:00 a.m. to 12:30 p.m. ET](#)
