

List of Experts in Networks Research

Provided by: John Quackenbush, Ph.D.
Using Networks to Link Genotype to Phenotype
Mind the Gap Webinar
March 5, 2018

Olga Troyanskaya, Ph.D.

Professor
Department of Computer Science
Princeton University

Benjamin Haibe-Kains, Ph.D.

Assistant Professor
Princess Margaret Cancer Centre
University of Toronto

Anna Goldenberg, Ph.D.

Scientist
Genetics and Genome Biology Program
SickKids Research Institute
Assistant Professor
Department of Computer Science
University of Toronto

JP Onnela, Ph.D.

Associate Professor of Biostatistics
Director of the Master of Science in Health Data Science Program
Harvard T.H. Chan School of Public Health

Albert-László Barabási, Ph.D.

Distinguished Professor
Director of Northeastern University's Center for Complex Network Research
Dana-Farber Cancer Institute
Visiting Professor
Center for Network Science
Central European University

Jason Moore, Ph.D.

Director
Institute for Biomedical Informatics
Perelman School of Medicine
University of Pennsylvania

Steve Horvath, Ph.D.

Professor of Human Genetics & Biostatistics
Department of Biostatistics
University of California, Los Angeles

Scott Weiss, Ph.D.

Professor
Department of Environmental Health
Harvard T.H. Chan School of Public Health

Ed Silverman, Ph.D.

Physician, Brigham and Women's Hospital
Professor of Medicine
Harvard Medical School

Jonathan Pritchard, Ph.D.

Professor of Genetics and Biology
Stanford School of Medicine
